DENIAL OF TREATMENT

The Typical Method of Torture in Bahrain's Prisons

»»» Forms Of Violation Of The Right To Receive Appropriate And Necessary Treatment

1. Not responding directly to the prisoner's request of treatment.
2. Not giving the prisoner the prescribed medication or giving it to him in an irregular manner.
3. Not giving the prisoner the medicine brought by his family.
4. Not allowing the prisoner to go to the scheduled appointments.
5. Not letting the prisoner be seen by a consultant specialized in his condition.
6. Preventing the prisoner from receiving the physiotherapy recommended by the attending physician.
7. Giving the prisoner medical appointments that are too far.
8. Changing the doctor examining the case, which causes confusion in the prisoner's examination.
9. Torturing the prisoner in the area of the injury.
